Hireology Product by Bundle

Hireology Essentials: Applicant Tracking System + CareerSite

Hireology Plus: Applicant Tracking System + CareerSite + Referrals

Product Descriptions

- Applicant Tracking System: Hireology's proprietary software application that helps organizations manage the hiring process and distribute job openings to a variety of third party job posting sites.
- CareerSite: a product that hosts the client's career web page and provides tools to enable job opportunities to be posted on the client's career page, receipt and routing of candidate applications, branding of the client's career site, communications with potential candidates, sharing content on social media, etc.
- Referrals: an add-on proprietary product offered within the Applicant Tracking System that allows employers to manage employee referral campaigns.
