Smarter Scheduling Starts Here: Meet Staff View

Streamline nursing home staffing with Viventium Scheduling. Discover the new Staff View feature for efficient shift management and reduced administrative workload. Contact us to learn more.

Published May 9, 2025

At Viventium, we understand that efficient scheduling is essential for delivering exceptional care in nursing homes and senior living communities. That's why we developed Viventium Scheduling – a comprehensive solution built for the complex staffing demands of skilled nursing, assisted living, and retirement communities.

Viventium Scheduling equips administrators with tools to manage intricate staffing requirements, ensure regulatory compliance, and accommodate varied shift patterns. With just a few clicks, administrators can build schedules faster, minimize manual work, and keep their teams organized. Key features include automated scheduling, open shift management, overtime forecasting, time-off visibility, preferred work schedules, customizable views, instant employee communication, and mobile accessibility through our ESS app.

What is Staff View?

While our existing Shift View provides visibility into open shifts and overall coverage, Staff View offers a new perspective by displaying each employee's scheduled shifts in a clear, intuitive format. This enhancement enables administrators to:

- Quickly identify who is working each shift
- View schedules by employee instead of shift
- Customize views by role, department, or location

Simple visibility. Smarter decisions.

In the fast-paced environment of healthcare facilities and communities, having immediate access to individual staff schedules isn't just a nice-to-have – it's critical. Staff View simplifies your scheduling process, reduces administrative workload, and enables faster, more confident decisions. With both Shift View and Staff View, Viventium gives you the flexibility to manage your workforce in the way that works best for your team.

Now available for Viventium Scheduling clients

Staff View is now available to all clients using our Scheduling module. Whether you're an HR leader, director of nursing, scheduler, or administrator, this enhancement gives you a more personalized and efficient way to manage your team's shifts.

Ready to experience Viventium Scheduling in action?Contact us today to explore our full suite of features – including the new Staff View – and discover how smarter scheduling can simplify your operations.
