BROOKLYN, NY – (May 21, 2019)–Viventium Software and Edison, NJ-based SmartLinx Solutions today announced a strategic partnership to provide customers with access to robust human capital and workforce management systems that leverage the companies' combined expertise. By creating this partnership, both Viventium and SmartLinx extended their eco-systems to provide more options for long-term and post-acute healthcare facilities. Viventium provides transformative and cloud-based human capital management software that specializes in managing people and payroll-related financial processes. SmartLinx's unified workforce management suite helps clients ensure proper staffing 3 shifts a day, 365 days a year as well as streamline corresponding scheduling, workforce, and compliance processes. The partnership enables Viventium's clients to incorporate SmartLinx's core scheduling and time & attendance capabilities into its integrated Viventium platform while giving SmartLinx clients the opportunity to add Viventium's robust fulfillment and payroll functions to their unified SmartLinx platform. "Viventium is excited to partner with SmartLinx as they share our passion for providing leading technology solutions and offering remarkable service in markets with complex payroll requirements," said Dan Neuburger, Viventium CEO. "With the growing complexity of HCM compliance in healthcare markets, Viventium and SmartLinx can ensure our healthcare clients get the best solutions for their business needs." Viventium's payroll and HR offering combined with SmartLinx's Time & Attendance and Scheduling Optimizer solutions will simplify the clients' experience by providing a one-stop shop for HCM and workforce management needs on one integrated platform. "SmartLinx is thrilled to work with Viventium to fulfill our joint mission of helping healthcare providers streamline critical workforce processes and proactively meet the industry's evolving demands," said SmartLinx CEO Marina Aslanyan. **About Viventium Viventium Software Inc.** is a SaaS-based human capital management solution that provides a remarkable user experience and design anyone can use with ease.
